HR SUMMIT

Asia- Pacific Update

October 21

2010

Following the success of the last few HR Conference held on Jan 15 (T&D Conference) and July 30 (Training Evaluation Conference) in 2010 we are pleased to organize a global HR Summit for Leaders and release 2010 state of Employee Survey Results: Their Challenges, What they think of their role? What they think of Cross Culture Impact? What they “Do”? What “Works”? Their Results Observed Re: Performance! The 2008 research report was downloaded over 10,500 times, with another 7,000 copies emailed out and 12,000 copies circulated in print form. The impact in 2008 was great, with broad press coverage and a significant jump in our online visibility and search engine ranking.

This time, we would like to focus on the long standing issue of Leadership Training. Involving critical issues and often asked questions on what are the best possible ways of Leadership training, bringing out the best from leadership development, getting the best possible ROI from Leadership Training and Development, to the challenges faced by everyone involved in the implementation and execution of business strategy.

We are excited about what this year’s expanded survey might achieve for your organization!

Invitation to Leaders!
